

PRESS RELEASE

True North expanding to East Coast, Craig B. Ramich named as Principal Consultant

FOR IMMEDIATE RELEASE

Naperville, IL – October, 12, 2016 – True North Consultants, a leading environmental consulting firm based in the Chicago metropolitan area, is excited to announce the expansion of operations to the East Coast with the opening of our Reston, Virginia office at the Reston Town Center. This location was selected to serve the nearby Metropolitan District of Columbia (DC) region which includes Northern Virginia, the District of Columbia, and Maryland, as well as Pennsylvania, North Carolina, West Virginia, Delaware, and New Jersey.

True North is also proud to announce the hiring of Craig B. Ramich, CSP, LEED AP, as Principal Consultant to head the new Metropolitan DC office. Mr. Ramich has over 28 years of consulting experience with 24 years of local and regional experience. He holds an environmental engineering degree and has been actively involved in some of the largest and most challenging projects in the region. Mr. Ramich is an expert in diagnosing water intrusion and mold issues; a highly experienced environmental, health, and safety auditor; routinely performs and manages building hazardous material surveys and remediation; and provides with air compliance and permitting consulting services to numerous industrial clients. For the past decade, Mr. Ramich has assisted clients on a wide array of projects including The Yards, National Museum of African American History and Culture Center, and the J. Edgar Hoover Building, amongst other marque properties.

According to Mr. Ramich, “Sometimes life is all about timing. The confluence of True North’s desire to expand to the East Coast and my passion to foster and grow a new office are a perfect pairing. Our clients deserve a higher level of service, a higher level of technical excellence, and an advocate that understands the business implications of their work. I couldn’t be more excited to join this stellar group of professionals in obtaining these goals.”

About True North

True North Consultants represents a unique assembly of engineering and science-related professionals dedicated to providing sustainable site development and resource management solutions. At True North we approach each project with the fundamental belief that understanding our client’s unique needs is not only important, but critical to achieving our client’s goals. This alignment of values and vision is so integral to everything we do that it serves as the basis of our name. We believe each client’s vision represents “True North,” and we dedicate ourselves to using this compass to guide our every business decision.
